

OMEN 25i Gaming FHD Monitor

Your game just got real. Like real real.

React faster, aim better, and zero in every aspect of your game. We've redefined high definition gaming with 165Hz, 1ms response, AMD FreeSync™ Premium Pro¹, and more colors than ever before.

Tailor Your Target

Zero in all your settings in OMEN Gaming Hub. Customize your environment-dynamic crosshairs², upscale older games to 1080p resolution flip into remaster mode, see in the dark with shadow vision, and catch all the details with edge precision.

No Frame Left Behind

Live in the flow of 165Hz with 1ms response time and experience silky smooth gameplay with AMD FreeSync™ Premium Pro¹ and G-SYNC compatible³.

All of the Colors

Look out. This breathtaking view will blow you away with its killer front of screen performance which includes 1080p IPS, VESA DisplayHDR 400, and 90% DCI-P3 color gamut.

Comfort for the Eyes

HP Eye Ease with Eyesafe® certification filters blue light without affecting the color accuracy in. Customize your comfort with the adjustable base.

OMEN 25i Gaming FHD Monitor

Featuring

Step up to the best

IPS technology brings you clear views from almost any angle. Every seat is the best seat in the house.

165Hz refresh rate

Crisp action and incredibly responsive gameplay with virtually no artifacting or screen tearing.

1-millisecond response time with Overdrive

Eliminates motion blur for crisp, fluid gameplay no matter what's happening on-screen.

Moving Picture Response Time

Greatly reduces motion blur for a more fluid visual experience.

VESA Certified DisplayHDR 400

Brighten your screen with enhanced contrast for a lifelike visual experience.

DCI-P3 color space

Get deeper hues and more accurate colors with a wider color gamut than sRGB.

AMD FreeSync™ Premium Pro Technology

AMD FreeSync™ Premium Pro technology means low latency, wide adaptive refresh rate ranges, low framerate compensation and brilliant pixel quality in gaming.

8-bit color

Experience true to life color with an 8-bit color display that shows 16.77 million colors.

OMEN Gaming Hub

OMEN Gaming Hub is your one place for everything to make your gaming experience better. From software enhancements to hardware control, and live services, OGH elevates play in easy and simple way.

Dynamic Crosshair

Automatically changes the crosshair color based on environment, so it doesn't disappear in the background.

Game Remaster Mode

Automatically upscales resolution of old school games and applies color filters to make them look brand new.

Shadow Vision

Brightens scenes without overexposing, so you can see better in dark environments.

Edge Precision

Smooths and corrects sharp images for a more accurate and realistic appearance.

Console compatibility

Easily connects with your favorite current and next gen gaming consoles – just plug and play.

Eyesafe® Certified Display

Eyesafe® certified displays meet TÜV low blue light requirements and Eyesafe® standards for protecting your eyes from harmful blue light without distorting colors to reduce eyestrain when working for long periods of time.

Adjust your view

Easy tilt adjustment 5 degrees forward and 20 degrees backward.

Sustainably Sourced Packaging

HP is innovating new ways to reduce the amount of materials in our packaging and to use more recycled materials in the design.

FHD display / 1080p display

Brilliant visuals and unforgettable quality from a stunning FHD display.

Joystick

Navigating through the on-screen menu is easier than ever before with a built-in joystick.

Off the desk and on the wall

VESA mounts for easy mounting on a wall or arm.

Three-sided micro-edge display

See more of your screen with a three-sided micro-edge display that maximizes your viewing area.

⁴ All performance specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary, either higher or lower.

⁵ DisplayHDR™ is the high-performance Monitor and Display Compliance Test Specification from VESA specifying HDR (High Dynamic Range) quality. See <http://displayhdr.org> for more details.

⁶ FreeSync Premium Pro does not require HDR capable monitors; driver can set monitor in native mode when FreeSync Premium Pro supported HDR content is detected. Otherwise, HDR content requires that the system be configured with a fully HDR-ready content chain, including: graphics card, graphics driver and application. Video content must be graded in HDR and viewed with an HDR-ready player. Windowed mode content requires operating system support. GD-162.

⁷ 100% outer box packaging and corrugated cushions made from sustainably sourced certified and recycled fibers.

⁸ Fiber cushions made from 100% recycled wood fiber and organic material.

⁹ Full high-definition (FHD) content is required to view FHD images.

¹⁰ VESA mounting arm or wall mounting assembly sold separately.

Screen treatment	Anti-glare
Touch-enabled	Not touch-enabled
Integrated privacy filter	No
Flicker-free	Yes
Low blue light modes	Yes, Eyesafe® Certified

OMEN 25i Gaming FHD Monitor

Messaging Footnotes

¹ FreeSync™ Premium Pro is only available when it is connected on Display Port or HDMI with HDR capabilities and game support. FreeSync is an AMD® technology enabled on FHD, QHD and HDR displays and is designed to eliminate stuttering and/or tearing in games and videos by locking a display's refresh rate to the frame rate of the graphics card. HDR does not require HDR monitors; driver can be set in native mode when FreeSync Premium Pro supported content is detected. Otherwise, HDR content requires that the system be configured with a fully HDR-ready content chain. Mandatory low framerate compensation and at least 120Hz refresh rate, AMD Radeon Graphics and/or AMD A-Series APU-compliant monitors with DisplayPort/HDMI Adaptive-Sync required. AMD 15.11 Crimson driver (or newer) required to support FreeSync over HDMI. Adaptive refresh rates vary by monitor. More information is available at www.amd.com/freesync.

² Based on HP's internal analysis of a gaming cross hair that can be built using 5 customer customizable shapes for up to 25 shape combinations using 8 different colors as of Jan 5, 2021.

³ Supports Adaptive-sync with NVIDIA® GeForce® graphics cards and AMD Radeon graphics cards. FreeSync™ certified. Compatible with NVIDIA® GeForce® GTX 10 series, GTX 16 series and newer graphics cards.

Technical Specifications Footnotes

¹ All specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.

² Lock sold separately.
