

## Key **Features**

- Blur Busters 2.0 Certified
- 240Hz Refresh Rate
- Fast-IPS Display with VESA DisplayHDR 400
- <0.5ms MPRT Response Time
- AMD FreeSync™ Premium

## Product **Description**

Engineered for gaming, the ViewSonic XG2431 features the perfect blend of speed, control and color. An ultra-smooth 240Hz display pushes FPS gaming into new territory, enabling games to run at higher frames for superior graphics performance. AMD FreeSync™ Premium synchronizes the monitor and GPU outputs, eliminating screen tearing and lag. Fast-IPS technology combines rich colors with VESA DisplayHDR, better contrast, and wide viewing angles, with up to 4X reponse times compared to traditonal panels. The <0.5ms MPRT response time allows every input to be faster and more precise. Flexible connectivity via DisplayPort and two HDMI ports make connections to other peripherals or high-end graphics cards for gaming a breeze. The XG2431 is also equipped with ViewSonic's exclusive ViewMode™ presets, which offer user-customized game modes, including FPS, RTS and MOBA game settings.
