

Epson EB-1840W

DATASHEET / BROCHURE

This compact projector offers bright projections and widescreen entertainment at an affordable price.

The Epson EB-1840W offers high brightness and helpful features at an affordable price point. Powered by 3LCD technology, it delivers a vibrant, high-quality WXGA picture, thanks to an equally high White and Colour Light Output of 3,700 lumens and a contrast ratio of 2,500:1.

High brightness: Powered by 3LCD technology, the projector delivers a vibrant, high-quality WXGA picture, thanks to an equally high White and Colour Light Output of 3,700 lumens and a contrast ratio of 2,500:1

Easy to use: Setting up the EB-1840W is easy. The projector automatically searches for the picture source, so you don't need to do anything after plugging in your laptop. Aligning the picture takes just seconds as vertical keystone correction is automatic and horizontal keystone can be adjusted using a dedicated button.

Helpful features: Sound is provided by a built-in speaker delivering up to 5W, while the clever 3-in-1 USB display feature means just one cable is all that's needed for audio, visual and mouse control.

Outstanding versatility: The EB-1840W has a direct connection for Epson's ELP-DC06 USB document camera to give a close-up view of documents or 3D objects.

Great flexibility: Light and compact, the EB-1880 is ideal for ceiling or desktop installation, while the projector's extra-long adjustable foot means it's suitable for low tables too.

Low cost of ownership: Low power consumption and a long lamp life combine to deliver a low total cost of ownership, while remote network management helps keep maintenance costs down by removing the need for physical checks.

KEY FEATURES

- **Ultra bright**
3,700lm White/Colour Light Output
- **3LCD Technology**
For vibrant, high-quality pictures
- **Widescreen content**
High-quality WXGA picture
- **Easy to set up**
Automatically searches for picture
