EB-5520W

DATASHEET

A bright 5,500-lumen installation projector with WXGA resolution and excellent connectivity options for an affordable entry-level price.

The EB-5520W has been designed as an entry-level installation projector for boardrooms and classrooms, offering outstanding performance and wide-ranging connectivity options for an affordable price. On top of this, 10,000-hour lamp life[1] in Eco Mode and great value consumables result in a very low TCO.

Affordable 5,500-lumen performance
The EB-5520W offers impressive 5,500-lumen brightness and HD-ready WXGA resolution at an entry-level price, so you can display sharp, bright text images and videos, even in well-lit rooms, without having to pay a premium price. Improved colour and purer whites mean presentations that will really stand out.

Extensive connectivity options
Boasting HDBaseT for straightforward wired connection over a single cable, plus Miracast/WiDi for instant wireless connectivity via tablet or smartphone and two HDMI sockets, the EB-5520W offers a comprehensive array of connection options.

Reliable and durable
The hardwearing EB-5520W is designed to offer at least 10,000 hours of maintenance-free use in Eco Mode. Added to a low replacement lamp cost and the entry-level price, this makes for a very affordable TCO.

Easy, flexible installation
Horizontal and vertical lens shift with improved zoom and focusing make the EB-5520W very easy to install, and allow for a great deal of flexibility in mounting, making the projector suitable for a huge range of different rooms.
