

Epson EB-Z10000NL

DATASHEET / BROCHURE

Epson's brightest and most technologically advanced projector yet

As the brightest product in Epson's range, the EB-Z10000 suits the needs of demanding large venues and is designed for installation in government and educational establishments, auditoriums, museums, conference or exhibition halls.

Brightest - Its 10,000 lumens delivers clear and vivid images at XGA resolution with ease. Epson's 3LCD technology ensures high-quality images with its equally high White and Colour Light Output for vivid, natural colours and deep blacks, even in daylight.

Flexible - The flexible installation angle caters for both front and rear projection systems. The WiFi connectivity combined with a wide lens shift range both vertically and horizontally make for easy integration into any environment. And tap into Epson's EasyMP software to deliver split screen functionality, multi-PC projection and stream videos via WiFi.

Technologically advanced - It offers Edge Blending for the very first time, stacking up to four projectors horizontally and two vertically.

High quality images - Epson's Super Resolution feature delivers a smooth, high-quality image, every time.

Immaculate images - The Point and Arc Correction features allow for uneven screens and the built-in test patterns handle image calibration with ease.
