

Epson EH-R4000 with HC Lamp

Warranty

This powerful projector offers the ultimate cinematic experience with Epson's new 3LCD Reflective panel technology.

Experience colour and clarity like you've never seen before thanks to 3LCD Reflective panel technology. Every detail is perfectly resolved, even in dark scenes, with a huge dynamic contrast ratio and an HQV processor. While its stunning picture quality will command your full attention, the projector's sleek black design will all but disappear in the darkness of your cinema room.

Ultra-high-quality picture: Epson's new 3LCD Reflective panel technology builds on the established 3LCD system, helping achieve a very high dynamic contrast ratio of 1,000,000:1. This produces deeper blacks and brighter whites while giving richness to the colours, making them lush and lifelike across the spectrum for the ultimate viewing experience. 3LCD Reflective technology also offers a finer gradation of colours and a wide colour gamut. Epson has increased the aperture ratio by approximately 40 percent* which significantly reduces the inter-pixel spacing, lessening the "screen door" effect.

Super-responsive: 3LCD Reflective technology boasts an ultra-fast response time too, which has been increased by 75 percent*, capable of capturing even the fastest of moving images and reducing blur.

Picture-enhancing features: Features include frame interpolation for smooth motion and fluid action sequences; Hollywood Quality Video processor for the best Full HD images available; super resolution to increase the quality of standard definition sources, such as DVDs; and five different colour modes to suit a variety of environments and applications.

Fuss-free set-up: Setting up is fast and simple thanks to the motorised zoom and lens, with lens position memory for easy switching between different screen ratios. The projector can also be controlled over a network.

Control other equipment: To make life easier, other equipment, such as Blu-ray players, can be operated from the projector's remote control. And for a really impressive home cinema experience, 2x trigger out allows equipment such as screens and blackout blinds to be powered by the projector.

KEY FEATURES

- Lifelike colour - 3LCD Reflective panel technology
- Outstanding clarity - 1,000,000:1 dynamic contrast ratio
- Bright picture - 1200 lumens Colour Light Output
- Fluid action sequences - HQV processor and frame interpolation
- Fuss-free set-up - Motorised zoom and lens

PRODUCT SPECIFICATIONS

IMAGE

Color Light Output	1,200 Lumen
White Light Output	1,200 Lumen
Resolution	1080p
Contrast Ratio	1,000,000 : 1
Lamp	ETORL, 200 W, 4,000 h durability, 5,000 h durability (economy mode)
High Definition	Full HD
Colour Video Processing	12 Bits

OPTICAL

Throw Ratio	1.28 - 2.73:1
Zoom	Motorized, Factor: 1 - 2.1
Lens Shift	Motorized - Vertical $\pm 90\%$, horizontal $\pm 40\%$
Projection Lens Focus	Motorized

ADVANCED FEATURES

Other features	DeepBlack technology, Epson Cinema Filter, Epson Super White, Frame interpolation
Security	Control panel lock
Video Color Modes	Cinema, Dynamic, Living room, Natural, x.v.Colour

GENERAL

Power consumption	280 Watt, 235 Watt (economy), 0.27 Watt (standby)
Product dimensions	440 x 370 x 175 mm (Width x Depth x Height)
Product weight	9 kg
Noise Level	Normal: 28 dB (A) - Economy: 21 dB (A)
Supported Humidity	

If the projector is suspended from a ceiling or wall mount and installed in an environment with heavy oil smoke or places where oils or chemicals are volatilized, places where a lot of smoke or bubbles are used for event staging, or where aroma oils are frequently burned, it can make certain parts of our products susceptible to a material degradation which over time could break and cause the projector to drop from the ceiling.

If you are concerned about the environment in which your projector is installed, or if you have any other questions, please contact our support department and they can provide additional assistance.
