Product **Description**

The ViewSonic PG701WU is a high brightness WUXGA projector with 1920 x 1200 resolution and a 16:10 aspect ratio. The 3,500 ANSI lumens of brightness allows the PG701WU to project images in full depth and detail, even in brightly lit medium-sized spaces, such as meeting rooms or classrooms. Its new SuperEco+ mode extends the projector's lamp life of up to 20,000 hours, effectively reducing lamp replacement and maintenance costs. In addition, the dual HDMI ports allow you flexibly connect to your laptop, PC, and other high definition devices for presentation files or multimedia applications. Lastly, the USB Type A with power supply provides connectivity to a USB dongle for a wireless presentation.
